The Virginia Water Well Association was established in June 1949. The purposes, as set forth in the Association’s original Constitution, are as relevant today as they were in 1949:

- To put the water well drilling business in the Commonwealth of Virginia on a thoroughly scientific and businesslike basis;
- To maintain an organization to assist, promote, encourage and support the interests and welfare of the water well drilling industry within the Commonwealth of Virginia;
- To foster aid and promote scientific education, standards, research and techniques in order to improve the methods of drilling;
- To promote and encourage harmony and cooperation between the members and governmental agencies relative to the proper development and protection of the underground water supplies of the Commonwealth of Virginia; and,
- To advance the mutual interests of those engaged in the water well industry in their own and the public welfare.

To address the mutual interests of those engaged in the water well industry in their own and the public welfare, the Virginia Water Well Association works to:

- Advance the mutual interests of those engaged in the water well industry in their own and the public welfare.
- Promote and encourage harmony and cooperation between the members and governmental agencies relative to the proper development and protection of the underground water supplies of the Commonwealth of Virginia.
- Foster aid and promote scientific education, standards, research and techniques in order to improve the methods of drilling.
- Maintain an organization to assist, promote, encourage and support the interests and welfare of the water well drilling industry within the Commonwealth of Virginia.
- To promote and encourage harmony and cooperation between the members and governmental agencies relative to the proper development and protection of the underground water supplies of the Commonwealth of Virginia.

The Virginia Water Well Association's original Constitution, as it read in 1949:
